

## CLAIMS

What is claimed is:

1. A computer program for controlling a computer, the program comprising a recording medium readable by the computer, and means on the recording medium for providing both a multimedia player component and an integrated internet browser component, wherein the program permits a user to play one or more items of multimedia and to access the internet in an integrated fashion.

2. A computer program according to claim 1 wherein access to the internet is provided in the form of access to a dedicated and/or affiliated server sites adapted to provide related content.

3. A computer program according to claim 2 wherein access to the internet further comprises a conventional browser in order to provide access to unaffiliated server sites.

4. A computer program according to claim 1, further comprising one or more items of multimedia content.

5. A computer program according to claim 4 wherein the multimedia content is selected from music and corresponding video and graphics.

6. An article of manufacture for use in a computer, comprising a digital recording medium comprising an application according to claim 1.

7. A system comprising a computer program according to claim 1, in combination with a dedicated server adapted to be linked by the browser in order to provide related content.

8. A method of providing multimedia, the method comprising the steps of providing a computer program according to claim 1, loading the computer program on a client computer, establishing a connection between the internet and the client computer, and employing the

program to both play one or more items of multimedia content and access the internet for related content.
